The Honorable Julius Genachowski, Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: DA 12-1863, IB Docket No. 12-340; RM-11683 Reply Comments

Dear Chairman Genachowski:

As a small business owner I am well aware of keeping a close eye on costs. One area that we are all seeing an increase in costs is with our use of the mobile broadband network. As with many, my cell phone costs continue to increase.

LightSquared is attempting to enter the market and I believe that the additional competition will be good for the public. By adding more competition, all companies will face the need to maintain competitive pricing. It is a truism that all of us face in business and this is no exception.

As you are aware, LightSquared has filed a license modification application with the Federal Communications Commission. It is my request that this proposal be approved so that we can add another important option for the consumer.

I appreciate your taking the time to consider my viewpoint on this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'P. Neely', with a stylized flourish at the end.
